93	I think there needs to be a shift from prescribing a medication to handle every problem, to instead finding the root cause of the issue and handling it in a non-pharmaceutical manner, where possible. Our society has turned completely bio-chemical and we are not addressing nutrition and healthy living and eating habits sufficiently. For example, certain vitamin deficiencies will cause "depression". That should be checked for, before prescribing someone an anti-depressant.	4/16/2018 11:47 AM

81	Better education on foods and what is healthy, not gmo's. Herbal remedies	4/16/2018 7:02 PM
82	I think there needs to be a shift from prescribing a medication to handle every problem, to instead finding the root cause of the issue and handling it in a non-pharmaceutical manner, where possible. Our society has turned completely bio-chemical and we are not addressing nutrition and healthy living and eating habits sufficiently. For example, certain vitamin deficiencies will cause "depression". That should be checked for, before prescribing someone an anti-depressant.	4/16/2018 11:47 AM
83	Exercise and diet education	4/16/2018 8:02 AM
